Re: City of Highland AB939 2001/02 Biennial Review

Dear Ms. Brown:

In accordance with our conversation today, I would like to reiterate the City's position at this point. Yesterday, November 9, 2004, the City held a Public Works Subcommittee meeting, which is comprised of the City Manager and two councilmembers, to discuss the City's options at this point in regards to the 2001/2002 Biennial Review. The Committee's recommendation to the City Council will be:

- ▶ Withdraw the 2002 Generation Study;
- ▶ Request the 2000 Generation Study be determined to be the New Base Year, which would equate to a 45% diversion rate in 2002;
- ▶ Voluntarily file a SB1066 Extension Request and commit to programs that would increase diversion by 5% by December 31, 2005.

The next City Council meeting will be on November 23, 2004 at which time we will present the Committee's recommendation as stated above and a "draft" SB1066 application. We anticipate sending you this "draft" SB1066 application for your review prior to this meeting.

Letter to Rebecca Brown, CIMWB
